HOW TO DETERMINE YOUR RING SIZE

Please ensure you are printing the page to scale

Method 1 - Cut out ring sizer:

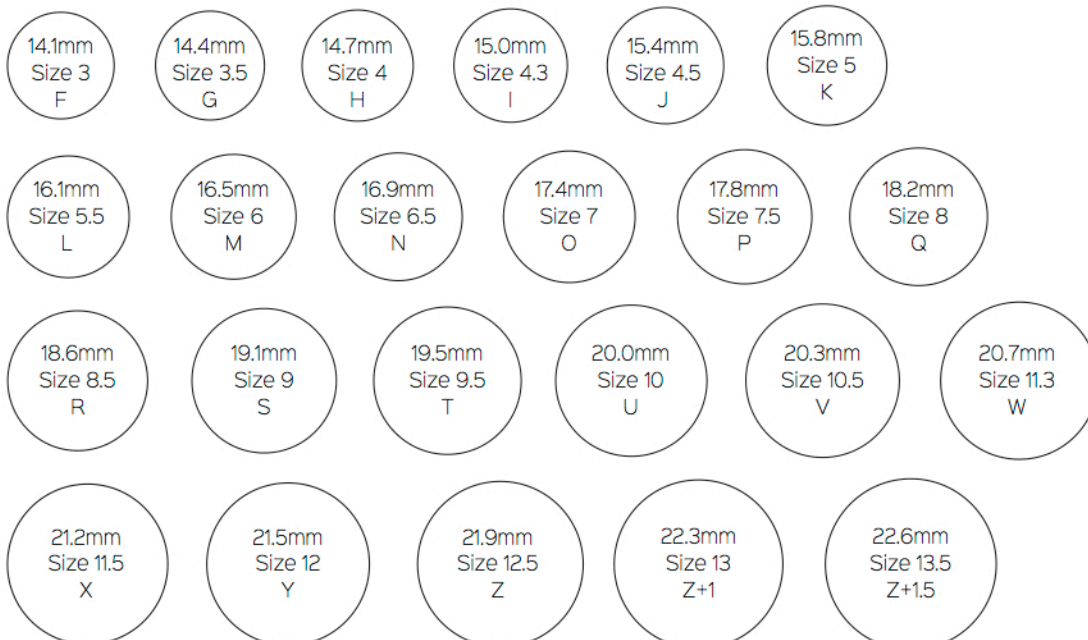

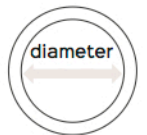

1. Carefully cut along the outline of the sizer. Make a small slit in the left end of the sizer.
2. Wrap the sizer around the intended finger with the numbers facing out.
3. Slide the pointed end of the sizer through the slit.
4. Move the sizer to the largest part of the finger, this may be the knuckle.
5. Pull tightly. The sizer must fit snugly to produce an accurate size.
6. The letter that lines up at the slit represents the ring size for that finger (refer to the ring sizes in circles below)

Cut at slit

Method 2 - Measure current ring

1. Select a ring that properly fits the intended finger. The "ring finger" is located between the little finger and middle finger.
2. Place the ring over the circles below, matching the inside edge of the ring to the circle nearest in size. This measurement refers to the diameter of the ring.
3. If the ring falls between two sizes, order the larger size.

If you have tried both methods of ring sizing above and are getting varied results (of more than half a ring size difference), please contact sparkle@stylerocks.com for assistance.
